

LA MANSARDA WHERE TO DROP YOUR WASTE DURING YOUR STAY

We know how complicated and frustrating can be while on vacation, to sort out your garbage

No matter if your stay with us is short or long.

We have its solution and will make it very simple

On your keyset you have two keys.

One of those keys is for the front door, the other is for the garage gate where we have bins for sorting your waste, while you are here. No need to wait for a specific date to throw that. We will take care

One only favor we ask is to separate that in the different bins we provide at the location.

So use the other key to open the side gate of the garage located in VIA CAPRIGLIONE 176, by the restaurant La Strada and opposite the hotel Smeraldo. You will reach the place within 1 minute, walking down to the street and making a right turn direction Positano

Precise location is: [HERE](#)

If you do not have the key with you, you can grab one from the meter box, in the yellow highlighted square

The key will open the side gate on the left, behind the left wall of this picture. You will notice the bins, in the left corner of this garage.

Grazie mille for your cooperation

Domenico
